## FULL STACK SOFTWARE ENGINEER

I'm a software engineer with a passion for innovation and problem-solving. With 4+ years of experience in JavaScript, Python, React, and database management, I enjoy bringing ideas to life and creating seamless user experiences. I take pleasure in working on teams, and I thrive in agile development environments. My goal is to make an impact by delivering software solutions that offer exceptional user experiences.

## TECHNICAL & INTERPERSONAL SKILLS

**Languages:** JavaScript, Python, HTML5, CSS, SQL, JQuery, NoSQL, TypeScript,

**Libraries and Frameworks:** React, Express.js, Node.js, Next.js, React Native, Django, JQuery, Tailwind, Bootstrap,

**Database and other:** MongoDB, RESTful APIs, JSON, Git, GitHub, Ajax, Axios, MySQL, PostgreSQL,

**Interpersonal skills:** Communication, Time Management, Consistency, Team Collaboration, Adaptability, Creativity

## TECHNICAL PROJECTS

[myCode](#) | Solo Project | Project Role: Full-Stack Web Developer | 2-week sprint | MERN

A platform facilitating easy access to stored code snippets for developers.

- Developed MyCode, a comprehensive web application, utilizing the MERN stack (MongoDB, Express, React, Node.js)
- Used React.js for UI, MongoDB for storage, Express.js/Node.js for a strong API.
- Implemented JWT for data security, Tailwind CSS for responsive design.
- Deployed flawlessly on Render and Netlify, showcasing deployment skills.

[ChatMe](#) | Solo Project | Project Role: Full-Stack Web Developer | 2-week sprint | MERN

A web application that allows users to chat to each other real time.

- Created ChatMe, a real-time MERN-based chat app. (MongoDB, Express.js, React.js, Node.js).
- Integrated WebSocket messaging for instant communication. demonstrating real-time interaction and teamwork.
- Implemented JWT for data security, Tailwind CSS for responsive design ensuring responsiveness, cross-browser compatibility.

## EXPERIENCE

**Full-Stack Software Engineer, Tecnocasa**

**2018-2020**

- Streamlined and optimized Estate Agent website functionalities, fostering enhanced user engagement and experience.
- Implemented dynamic search functionalities, enabling users to efficiently explore properties based on specific criteria, enhancing the overall browsing experience.
- Engineered an internal system empowering agents to oversee properties and their respective owners.
- Ensured seamless bidirectional communication between the backend and frontend, upholding pristine code standards.
- Collaborated within a compact team of developers, fostering a culture of excellence through seamless teamwork and mutual support.

**Software Engineering, General Assembly**

**2023**

- Completed an intensive 12-week full-time Software Engineer bootcamp with 480+ hours of professional training.
- Gained hands-on experience in Software Engineering, including teamwork and client interactions.
- Collaborated with diverse teams on multiple projects, applying agile methodologies to deliver high-quality, scalable solutions.
- Developed strong problem-solving, algorithmic thinking, and debugging skills.
- Showcased adaptability and quick tech uptake in fast-paced environments.

## EDUCATION

**General Assembly** Certificate in Software Engineering

**Eotvos Lorand Technical High School**

IT System and Application Operations Technician

New York, Certificate earned : 08/2023

Hungary, High School diploma
